

by *FINANTIS Value*

Are your Industrial Property rights worth peanuts or gold ?

Get your financial value estimate online
with ip-nuts.com, within 3 days.

Patent

Registered design

Trademark

We conduct independent financial valuations of intangible assets and businesses on a daily basis.

These assets include Industrial Property (IP) rights, such as patents, trademarks, and registered designs. Financial asset valuation is an intricate and precise practice.

IP'NUTS was born to help professionals value their intangible assets when, in light of the nature of the rights and the context, an in-depth independent study is not necessary. In many cases, getting a general idea of their value is enough to make a particular decision or to initiate negotiations.

If you need valuation services on a well-identified IP issue, IP'NUTS can quickly provide an overall value estimate, while using realistic, proven valuation methods, in line with best practices and standards applicable in our profession.
